Blue Advantage of Arkansas Virtual Health

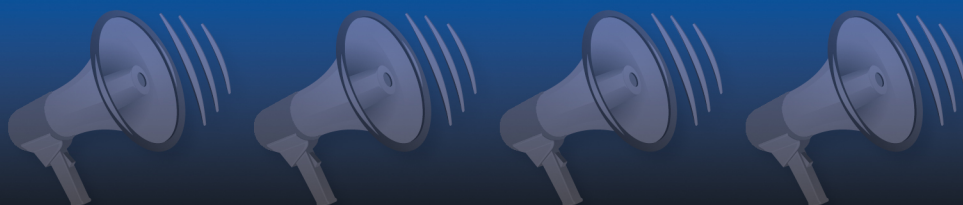

If you are covered by the college's health insurance plan (BCBS), did you know you have access to virtual health? Virtual health works similar to telehealth, with the exception that you have access to the physicians, 24 hours around the clock. Virtual Health is perfect for non-emergency conditions such as Behavioral health conditions including anxiety, depression, stress management, grief and loss, bipolar disorders and Medical Conditions including allergies, pink eye, rash, ear problems, insect bites, and urinary problems. Refer to your 2023 Employee Benefit Guide on page 12 to scan the QR code to get started or go to myvirtualhealth.com and follow the simple steps to register or sign in.

** Any time your emotional condition might make you a danger to yourself or others or for medical emergencies such as broken bones, excessive bleeding, dangerously high fever, symptoms of a heart attack or stroke, etc. seek medical treatment immediately by going to the ER.

Prescription Drug Benefits with BCBS

Are you on a monthly maintenance medication (i.e., blood pressure, cholesterol, thyroid medication)? Did you know that you could save a copay by getting a 90-day supply? The copay for a generic medication through your prescription drug plan is \$5.00. Have your medical provider write your prescription for a 90-day (3-month) supply and take the prescription to your pharmacy. This will save you a one-month copay on all generic, preferred or nonpreferred medication.
