Have items of interest you would like featured in the NewsLink online newsletter? Please send your departmental news, upcoming events, etc., to James Hartley at jhartley@smail.anc.edu. The deadline is 3 pm on the last Thursday of the month.

ANC Mission

Arkansas Northeastern College is committed to providing accessible, quality educational programs, services, and lifelong learning opportunities.

ANC Welcomes New President

ANC welcomed a new President on July 1st. We are excited to have the leadership of Dr. Christopher Heigle and look forward to the continued excellence for which ANC is known.

We are also looking forward to the return of the faculty this fall term.

ANC welcomed many other wonderful new team members this summer, and the campus hosted a number of exciting events and activities. With new and returning students soon gracing our campus, we invite you to join us in extending them a warm welcome.

Have a great academic year!

Girls in STEM

ANC hosted the Museum of Discovery's Girls in STEM day camps for girls ages 12-14 in June. There were many activities and plenty of fun.

Mini-MASH Summer Program

Arkansas Northeastern College hosted the 2023 Mini-MASH program from June 19th – 23rd.

Mini-M*A*S*H, (Medical Applications of Science for Health), is a one-week summer enrichment program for 10th, 11th, and 12th graders from area schools who are interested in pursuing a career in healthcare. Students are selected based on their academic standing, community involvement and their interest in pursuing a medical career. During the one-week program, students were given the opportunity to take part in the many activities. Thank you to all volunteers, presenters, and career coaches for their help.

JR Robotics Camp

Students from Armorel, Blytheville, Gosnell, Osceola, and Rivercrest enthusiastically took part in an engaging Jr. Robotics camp, organized by their Career Coaches. The camp provided an immersive experience where each student had the chance to construct numerous cutting-edge electronic creations, all within the confines of the ANC campus. Furthermore, the students were afforded the incredible opportunity to delve into various career paths through captivating virtual reality experiences. They also gained valuable insights into the numerous prospects offered by the ANC Technical Center and the Early College Program.

ANC Faculty Achieve Academic Rank

Dustin Kemper
Professor

Dianne Miller
Assistant Professor

Gloria Stromire
Assistant Professor

ANC established its faculty ranking system allowing faculty members to earn the ranks of Assistant Professor, Associate Professor, and Professor based on accomplishments in the areas of student & dean evaluations, institutional & community service, scholarship, student success, and institutional-specific & discipline-specific professional development.

The faculty members to be awarded rank are Dustin Kemper, Dianne Miller, and Gloria Stromire.

Congratulations to the awardees!

HR Corner

Beat the Heat Safety Precautions

Heat is one of the leading weather-related killers in the United States. Extreme heat or heat waves occur when the temperature reaches extremely high levels. Heat related illnesses, like heat exhaustion or heat stroke, happen when the body is not able to properly cool itself. While the body normally cools itself by sweating during extreme heat, this might not be enough. In these cases, a person's body temperature rises faster than it can cool down.

This can cause damage to the brain and other vital organs.

The best advice is to drink plenty of fluids, stay out of the sun, and in an air-conditioned place. If you work or spend time outside, take extra precautions, such as frequent rest breaks in shaded or air-conditioned locations. Also wear clothing that is light weight and loose fitting. If possible, reschedule strenuous activities for the early morning or evening, when cooler temperatures prevail. Car interiors can reach deadly temperatures in a matter of minutes during hot or warm weather. It is NEVER safe to leave a child, disabled person or pet unattended in vehicles. An estimated 38 children die each year from vehicular heatstroke. Check on friends, family, and neighbors. Always provide water to your pet, whether inside or out. If your pet is outside, make sure they have plenty of shade and access to plenty of cool water. Anyone overcome by heat should be moved to a cool and shaded location.

Notes of Thanks

ANC Faculty & Staff,

Thanks for the beautiful flowers you sent last week. I appreciate all the calls, texts, and especially the prayers.

Randy Scott

Thank you for the beautiful plant you sent my husband (Rudy). They were a total surprise. We appreciate them.

He is in a rehabilitation hospital in Chicago. Not sure how long he will be there, but praying for a complete recovery.

Jeanette Sells

Dear ANC Board, Faculty and Staff,

We appreciate our friends' generosity and kindness to our family during this time. "Thank you" seems insufficient. Please know our hearts are full of gratitude and we are overwhelmed by all the love and support.

To God be the Glory!

Love,

Bill Kenner and All
