Please send your

departmental news, upcoming events, etc., to James Hartley at jehartley@smail.anc.edu

The deadline is 5 pm on the last Thursday of the month.

ANC Mission

Arkansas Northeastern College is committed to providing accessible, quality educational programs, services, and lifelong learning opportunities.

Center for Allied Technologies

The Grand Opening for Arkansas Northeastern College's new Center for Allied Technologies was held on Friday, August 17. There were over 250 community members present including Governor Asa Hutcheson. The center was completed just in time for the start of classes for the Fall Semester.

Construction on the center began in April 2017. The new center will actually decrease the College's overall facilities by 30,000 square feet by consolidating the Burdette Center, Harry L. Crisp Center, and the ACME Center—with an estimated costs savings for the College of approximately \$100,000 a year.

Center for Allied Technologies Cont...

The Center for Allied Technologies features the headquarters for the College's customized training force—The Solutions Group, including general purpose classrooms, electrical classroom & lab, mechanical classroom/lab, safety classroom/lab, HVACR classroom & lab, computer classroom, and large multi-purpose room. Additionally, a world-class welding laboratory will be available for students.

ANC Technical Center students from area high schools will also be served on the ANC Main Campus by classroom & lab facilities for advanced manufacturing, welding, criminal justice, education, and construction/carpentry. The design incorporates a computer lab specifically for the ANC Technical Center.

Also featured is an aircraft complex, combination non-destructive testing (NDT) & composites laboratory, and general-purpose classrooms to fully accommodate ANC's Federal Aviation Administration— certified Aviation Maintenance Program.

Other related facilities include an aircraft apron, paint booth, tool room and compass rose. The building design features a two-story-height aviation room, welding laboratory, and glass entrance tower to add to the building's distinctiveness and appeal.

The Center is home to the newly created Arkansas Steel Academy (a partnership with the SMSgroup of Germany) and is scheduled to begin operations in 2019. By partnering with SMS, the Arkansas Northeastern College has become a satellite training hub for North America as a cost-effective way to gain knowledge of cutting edge techniques in steelmaking and processing.

The agreement between ANC and SMS group will allow companies to save the costs of overseas travel by providing a North American option for the renowned TECademy training.

The ANC Center for Allied Technologies impressively mixes hi-tech and industrial components into an educational delivery mode. The cost to complete this facility was approximately \$14,400,000 including architectural and engineering fees.

The new Center is supported by \$1,805,000 of private donations. Three distinctive features at the main entrance are a 52-foot vestibule tower, an entrance garden honoring the late John Correnti, and an international flag court featuring national flags representing over two dozen corporate and private donors supporting the construction costs of the Center, including Japan, Argentina, Germany, Canada, and, of course, the United States of America.

ANC Friends Lend a Helping Hand

Arkansas Northeastern College is fortunate to have many wonderful friends in the community. Such friends came forward in a big way on August 15 as Nucor Yamato's Jeff Gammon, Jeff Kennon, Mike Hutton, Randy Henderson, and Sunbelt Rentals' Wesley Hopper, Brandon Meadows, and Kevin Estes gave of their time and use of their equipment to move a 23,000 pound airplane engine to the new Center for Allied Technologies. Thank you guys, we appreciate you so much!!!

Social

LOCAL ENGAGEMENTS

Join ANC Librarian Karen Ellis for intellectual stimulation and lively discussion in the ANC library. Make new friends, share your knowledge, and if you don't have a card— sign up for a library card to take advantage of the excellent reading material available at the ANC Library.

For more information, contact Karen Ellis at kellis@smail.anc.edu

The Community Education department at Arkansas Northeastern College is a non-credit, lifelong learning program that meets the changing needs of the community. Educational opportunities are continually developed and offered for citizens of all ages for a reasonable cost.
