

## Associate of Applied Science Degree – Business Technology Computer Information Systems Option

This program is designed for students who wish to enter the information-processing field. The program provides a solid foundation in business and computer courses that will expose the student to many aspects of the ever-changing world of computers in society. Students earning this degree may enter directly into a variety of positions in the business and industrial community with knowledge of various software packages, programming languages, network capabilities, web page design, and/or technical hardware skills. *A grade of "C" or above is required for all major requirement courses in this degree program. Students must have an overall grade point average of 2.5 or above in all coursework in order to receive this degree.*
