STUDENT FINANCIAL AID PROGRAM

The cost of higher education is indeed significant, but a college education represents a viable avenue, which enables a student to pursue careers that will benefit both the student and society. The student financial aid program at Arkansas Northeastern College is intended to assist qualified students in obtaining a college education when they might otherwise lack the necessary financial resources. Additional information regarding the various types of financial aid available, application procedures, and eligibility requirements may be found in the Arkansas Northeastern College Financial Aid Handbook available to answer questions and assist students in completing the application process.

SEE YOUR ADVISOR

Returning students need to have their schedules approved by their advisors. If you do not know the name of your advisor, check with the Registrar's Office in Statehouse Hall. If an advisor has not been assigned, contact one of the admission counselors in the Admissions Office to help plan your schedule.

SPECIAL NOTES

There are some courses that require a prior skill or prerequisite course. Check with your advisor or an Admissions Counselor if you think that you have the necessary skills for success in the course.

STUDENT SUPPORT SERVICES

The Student Support Services at Arkansas Northeastern College is designed to help currently enrolled students to stay in college and facilitate his/her transfer to another institution to obtain his/her baccalaureate degree. These students are assisted in the financial aid process and through the use of tutorial and study skills services. Students also have

academic, course, and personal counseling available along with career information, mentoring, and career exploration opportunities. This service is located in Statehouse Hall. Student Support Services is a federally funded Title IV program of the U.S. Department of Education.

COMPUTER LABS

The computer lab areas in the "B" wing are open to all students at the posted times. Assistants in these areas will help you if you need to work on special course projects.

MANDATORY REMEDIATION OF DEFICIENCIES IN BASIC SKILLS

Arkansas Northeastern College complies with section 19 of Act 1052 of 1987, approved by the state legislature and requires remediation in areas profiled as deficient. The College employs a comprehensive assessment and placement program to assist each individual in realizing his or her potential and success as a student. Degree seeking students (Associate of Arts in Teaching and Associate in Science) must take the assessments; the College, furthermore, encourages all entering students to take the assessments. Assessments in compliance with legislative mandate, is based upon any of the following: ACT, SAT, ASSET, or COMPASS.

A student who is deficient in any area (mathematics, English, or reading) must enroll in and successfully complete the appropriate developmental course(s) during the first semester of enrollment.

Students who require remediation must have the approval of their advisor in order to enroll in any college level course prior to completing developmental course work.

SPECIAL ASSISTANCE

The Learning Assistance Center in the Adams/Vines Library complex provides drop-in assistance and tutorial services for all areas of instruction. If you need help with a course, the staff in the LAC is available for assistance during the day and evenings. Also, the PLATO computer software is available for all areas of instruction on a tutorial basis, including such courses as Calculus. Instructors should refer students to the PLATO lab supervisors for help in specific areas.

IMPORTANCE OF REGULAR ATTENDANCE

National studies have shown that regular attendance in classes means better grades. It is to your advantage, as a student, to be in attendance in every class and to allocate appropriate study time throughout each week to insure success in your classes. At Arkansas Northeastern College, your instructors will expect you to attend regularly all classes and labs. In the event that you must be absent because of illness or an emergency, you should contact your instructor or instructors regarding why you were absent and to find out what work you missed. Please remember that absences can affect your grade adversely and regular attendance is a proven benefit to learning.

FALL 2011 CLASSES

updated August 19, 2011

Courses noted as INET courses may require proctored exams. Hybrid courses require some classroom meetings in addition to proctored exams. An orientation to our course management system, e-Racer, is recommended for all students and required for all students registering into INET courses. Email onlineadvisor@smail.anc.edu with questions regarding the e-Racer orientation.
